Join us to explore the mystical world of magical arts and theatricality! This program offers a strong focus on dramatic presentation as students learn how tricks come to life! We'll learn loads of tricks – maybe how to make cards appear, coins disappear or read people's minds – all while fine-tuning our critical thinking skills, as well as enhancing fine and gross motor skills. If you've always wanted to mystify an audience, this is the program for you! Join us this term for a truly magical experience!
